Moubarak Clemenceau Ali-Kparah

(469)-396-3305 alikparahmoubarak@gmail.com linkedin.com/in/moubarak-ali-kparah github.com/Moubarak-01

Education

Rust College **Expected May 2029**

Bachelor of Science in Computer Science — GPA: 4.0 *Holly Springs, MS*

- **Honors & Affiliations:** ColorStack Fellow, 2026 EICOP Finalist, CodePath AI Engineering, CodePath Cybersecurity, CodePath Advanced Technical Interview Prep, HackerRank Software Engineer Intern, HackerRank Frontend Developer (React), HackerRank Software Engineer, French Proficiency (Native)

Technical Skills

Languages: TypeScript, JavaScript, Python, HTML/CSS
Frontend: React, Tailwind CSS, Vite, React Query, Radix UI
Backend & System: Electron (IPC, Native Modules), Node.js, REST APIs
AI & ML: Gemini API (1.5 & 2.0 Flash), DeepSeek R1, Perplexity, Groq, Whisper
Tools: Git/GitHub, Linux (Bash), VS Code, CyberChef, SSH

Professional Experience

Rhodes College **May 2025 – July 2025**

Computational Research Assistant *Memphis, TN*

- Automated experimental data entry workflows for cross-functional research teams, reducing manual error rates by 15% through process optimization and custom Python scripting.
- Collaborated with lead scientists to execute 20+ protocols, implementing documentation standards mirroring software version control and debugging methodologies.
- Explored interdisciplinary applications of computer science to ensure absolute data integrity across large-scale scientific datasets.

Software Engineering & AI Projects

Moubely (Intelligent Desktop Assistant) | *Electron, React, TypeScript, AI APIs* **December 2025**

- Architected a resilient multi-provider LLM orchestration layer with a dynamic routing engine, eliminating 95% of API failures by orchestrating 18+ AI models.
- Engineered a high-performance Privacy-First Overlay using advanced Electron window management to ensure zero-latency data security for productivity workflows.
- Distributed application as a standalone Windows executable (.exe) via GitHub Releases, streamlining deployment.

Mouvie (Movie Search Web App) | *React, JavaScript, Tailwind CSS, Appwrite* **November 2025**

- Built a reactive app using Appwrite for auth and real-time database management, scaling to 500+ active user searches via optimized REST API integration.
- Engineered a smart routing system for native Android intents or web fallback, improving mobile load times by 30%

Personal Portfolio Website | *HTML, CSS, JavaScript* **September 2025**

- Developed a high-performance portfolio site using modern CSS Grid and Flexbox, leveraging GitHub Actions to establish continuous integration (CI/CD) pipelines for seamless automated deployment.

Leadership & Mentorship

Rust College **January 2025 – Present**

Student-Athlete *Holly Springs, MS*

- Maintained a perfect 4.0 GPA while dedicating 20+ hours weekly to intercollegiate athletics, concurrently mentoring 10+ freshmen on balancing academic rigor with high-performance travel commitments.
